Manchester Community College
Student Representative

Manchester Community College has become a big part of my life since moving to Connecticut from Miami, Florida. From the day I first stepped on campus I knew this would be a wonderful experience. The atmosphere on campus is awesome and I believe it's because of the attitudes of the staff on campus. I believe if the schools funding gets cut it will tarnish the easy going, positive attitudes that drives this campus every day.

So many students depend on the funding Manchester Community College receives. Manchester Community College has adjusted to the previous budget cuts that it has received in the past. I believe the school has done a great job with what it has and still makes this campus one worth coming to everyday. Manchester Community College has great resources on campus to help students with all their needs.

The tutoring center has helped me numerous times with tough subjects I needed extra help with. The school's library has been an amazing resource. I often visit the library to rent movies to help pass these long snow days. I always print out my homework in the library. I don't know what I would do if the library did not offer printing, or if the price of printing went up. I visit the school's cafeteria every day for a delicious lunch. Recently the prices have gone up, and I'm not sure if it's because of budget cuts, but I'm sure somewhere down the line it has an effect. I hope the school could possibly receive more funding to help out with other projects Manchester Community College are trying to upstart, like the schools radio station that I am actively a part of.

Thank you for your time and I hope you take my testimony into consideration and spare Manchester Community College and other Colleges and Universities from budget cuts.
